My Dear Daughter

I am expecting a letter from you but thought I would begin one to you. yesterday was your dear Brothers birthday and our darling spent it in prison. Oh my Darling my heart is broken. God has raised up friends by the hundreds for which we are very grateful. Ben Dalton is to be married to night. May has just been over to know if I would like to come over and look at the decoration and parents but you know that they was to have been there & it would only make me break down or how miserable you but I would not have you here if you can't porrable stay than & your father would feel a great deal worse if he thought we blighted your ambition. then it would only being you better. the people god bless you money for your father it is a good thing that I have such a excellent character all thought came they to make him out although very covous Mrs Taylor with some thing good to eat before I left may & her mother came & the father & Mrs Haze & her mease & Miller & she has written to you & you see I have a lot of callous now I am going down to see the & do ever night April 26 I will be at the wedding is over and all is quiet now. I did not send any thing but was to have if they come help it at all means stay there if you come home you will not get their again. Heo looks very weary of the commitment is telling on him. dont the lord that we had lager on & he large sakin hair clout them before that the ran long for the flower I will send you some calender from different papers that won't for play & some that is a lot of means. I will give you the paper but then I will not send to you. I have raised one hundred dollars for to start. The cost of depending the I believe Gurley. To by in going to part with a paper to rear money for the difference it will take about five thousand dollars or more. Oh my darling not this come in a odd time. My darling don't wrap down you know you are an orphan & you to take care of you so to say I am the brave & pray day & night for you. Dear Father that by may be said of this man. I feel that he self talked about a man about & she might best as well of kept her mouth shut but that I just like her when she is gathered on the stand they will hold her all the easier when that time come if you are there I will send you all the paper containing the yele file so hope that they all the will be all right on my & get so never when I think of it and when I dream of it. The thing I have a belief of letters of all kind is good and bad this is rather I will miss you to answer them I don't know if it is expected of me or not though letters are very comforting in this hour. I am all alone & it is raining hard it make me very blue. I got a letter from grandpapa & mother. They are for you in that believe that you is innocent & that will prove himself to you know maybe that I think that it was Minnie Williams rather that committed that crime. I don't write any of your name or what you thought of it or the Gurley in any way. Saturday 27 I got through cutting out the paper & I think I will send this letter with the rest of I have gotten as if I want to see more & will never get it off. you received the news first long before you get  
this letter Theos stabber of Simper last night  
to show make differ as Mrs Pelley calls the Off

old what ever he has to say he will say it at  
any cost if they get down on him they  
will make it very unpleasant for him Poor  
boy it is hard to be plient shot up their  
waker & week out with out any fresh air  
or exercise oh think I would go crazy  
I have not had a rat from <sup>our</sup> marriage yet tis  
that not funny you would of thought she  
would of been one of the first it would of  
take to long to name all the kind friends  
that have call or writter Oh but come Mrs  
Goad & Mr Parmer from Stockton he has been down  
to see Theos also Mr & Mrs Smith call on him that is  
what made him cross they would not let Theos  
see him but let every Tom Dick & Harry stare upon  
I have made a very nice report with the folks they  
have gon & the Mail man brought a letter from  
Martha Brodeur its full of warm sympathy  
now you see if I keep on I will not know when to stop

behalf of the family Gorge & Lizzie every one sends  
their sympathy to you and so there best love
