My Dearest

I received your letter yesterday & was very
happy to know that you are getting a long so much &
hope that the trial that has overlaid us will not make any
difference with you in mind, you have nothing to hang your
head for your brother never did that crime & no one with
reason believes he did it all gone and all right but
of course it is a dreadful thing to be associate with such
a thing every one is praying for him & my dear are mad
do our share I am so nervous about you I am afraid that
some one will deceive you anyway be very careful & do not
go with any one that you are not sure of then vice of

Frau Pratorius to help you along so nicely give her my
love & thank her for her kindness & tell her that I hope she
will be a mother to you in this time of trouble & she I hope
will clear away & all will be bright again I also hope that
Mrs Bush will still be a friend to you tell her that I am
sure as I am able to write or tell actually I will write
to her & thank her for all her fondness to you also give her
my love & thank her until I get tired around of I
can not say how much money I can send you
every month but will send you what I can and if
you have more than you want you can have a nest egg
in the bank to draw on when I do not send you any
but will always try and send you at least 15 Per month
I will send you this month 50 00 so you can spread
it so it will make it even with the 15 00 I send you every
month sea how well that do for a while until I am
turned around you know you Papa dear has not done
any thing since the three weeks after you left
he expects to get a position in July but that
is a long way off yet if you can get along on the
I would rather you keep right along with your wages
as it will help to keep your mind of your troubles
I am sure that you will excel at the end of the
year or year have every reason to believe that
you will be a credit to your teachers & that they will
be very proud of you do your best work to hard take
good care of your health as that is quite essential
to you good looks & as I do not want you look
like an old man when I come see you please my
dear I have not given up hope yet of seeing you in Germany
Here comes law reports that as on the call though
we are working for them to prove them innocent & they that
we are coming out my darling you can be sure that
I will telegraph to you and then we will be happy
again good bye until tomorrow Well I have not
been chosen to see Mr S he happened on to the well the
other day and spoke to him & they said that you had the
pleasure of meeting him & he said that he had the trial
day & to tell me the same again so I went to dining &
he said that he was ready for you & that he had been
seeking to some one about you & he thought that
to start a subscription for you that he would like to raise
it but that he was cramped for money of all kinds & he
wrote a letter when you left about the trial & he
will see the very soon when you dear brother will
hope to the world that he is ignorant of the crime that
he has been accused of tell him of your self & you will get
not a penny of the help Mrs Bush is giving you I will be
happy & kind & thank her & assist her in her mission give
she will we are in so much trouble she does not think
the trial will be over less than two years so that
not a dreadful poor boy she will be afraid to
braking horror by that time what a halt is his
young live But there are moart pray that some

thing will turn up & through light up this meeting
Mr. Seay that you would be very foolish to come
home as you could do no good & you time would
be wasted, as you could not ever practice here and
it would be very hard to get a position near your
better paper you are to meet Mrs. Walker & Dr. that
sent their love to you & so glad that you part
so humble & Dr. is going to write to you. Miss
Polars has paid \$14.00 for five papers of course many
make is only like half a paper she says next too
yet so I will put that with mine & send it to you
do not read the papers if there is any than about Theo
they have leded dreadfully and it is better that you
should not read them & will send you some clipping
out of them & went down to see Theo last night & I
got with me every other night do you know that I
has not written over time to him yet she sent me
a very nice note but not a word, has she written to
him first the time when he reads her support & comfort
I think he feels it but does not complain. Alice makes his
very happy she seems to see his nerves & she has been
very kind. The Perles many examination of both cases
discover & your brother is charmed with both too but it has been
a hard week for him he has done well & wish well as
same as it was they consented to allow him to have
a shave & haircut that was so many & wanted to
look as hard as possible to improve the people's perception
have made that impression with those that do not know
him but that is a fine coming & prop when that will all
change. That brother had him sent over to the
country on Broadway near Kerner St. period all night
after seeing him their with a burst for a company
I nearly went crazy when I came away. Her comes Mrs. Hays
with some words & she was up there & promising to help
part seven with some she does not forget when she
saved her life from drowning. Mrs. Taylor brought me a box
of my bread & that day she had a dream of you the other
night & she want to know what day you received the
first letter from home with the news post Mrs. Warthe
said & gave them some very hard dig about some of the
Church people thought Theo getting that thought that
circumstantial are very much against him that
higher it a parrot & do not want to see his people
to come to support the paper with you they have known
Theo long enough to be sure that he never did it what
do you think my Pet poor darling I wish war was their
with you all of you brother thought a ref for you so
now I do not know of anything more this
time if I do not send this if I will have it
another week now I will send you \$10.00
to marry the 6th of May so look out I will
send it the same way that you send your
other and after that I will only be able to
send you & until papa gets employment
or some thing else turn up now good by
and keep up courage and I will send you
if any thing never turn up may God
bless you my pet and be very careful &
sometimes think that Brodwar is at
the bottom of this & if he is he might turn
up over that so be very sure that no one
you I am so glad I do love & miss you
