

Good by I will write again next
Sunday it would do to tell you to write
all ~~the~~ your ~~was~~ ~~right~~ about you Sunday May 26/96
letters I wish I had of been just as better but
dit or never have you all may be. I hope to tell me
My Darling good by your loving mother do not
marry don't ^{at you get them all the money} better write long letters to so my
dear eyes I open my letters to you

but I do not know when I will close if
you know I write a letter each day until I
cannot find any thing to talk about now
let me see what has happened this week well first
on Friday Mr Deup says Mrs Papa told him to go home
& tell me that I might sleep sound as he had good
news about the care that means a great deal
Mrs King comes to see me once a week regularly
she writes down with me last Tuesday & she
going to call for her next Tuesday & she is going
to take him a nut cake & may be that lunch
I shall call on Mary & I shall be right there she
has not been down to see the boys of the matter
just to go when he says all the things but
she has not been now for four weeks. I can't go
any more her father asked her to go in a little
talk but as she has to mind her Papa she herself
did not care for the talk my poor Boy has not
very many visitors now I told you about
the young people well Mrs K told me that Mrs
Full is very well & bella & while Gurb is not very
strong yet she does not say a word in. The
boys I cannot understand how when those
that do not know her speak a good word for
why the people in the Church & in answers to
believe her get by the Vagabond & Probert & Corrin
& Worth & Sabers & Stevens & I do not know who
else have said as much to Mrs K that if he did not
do it well who did do it & would you trust
him if he get out to visit you home the same
over she said of course I should trust him just
the same with my own so much for Mrs K
then some has said that they figure to keep
on the right side of the Carran as I see you
not or could get George is man if he liked to
talk. What do you think of Lucil Turner & Tom that
see my get a deal more for please the same on I see did I tell
you that we found the questions of Professional character that
Thea wrote to her some 12 03 13 in number & her answer
to each in full when the defence let her see one
corner of the papers & asked her if she recognize the writ-
ting she said yes but warent she taken back I suppose
said when she came of the stands back to the room
they had to give her water & sprinkle her to keep her from
fainting but that is nothing to what she will
get at the main trial they will make her
worse she had never been harm that mark her
where her pain was why if Thea was not a pro-
per young man is judge and was her question & I
did he know that there was any thing she was
to write her if she did not first tell him & ask
him to study up her case for her close you think
no there are ways we that have a good word for her
now you know the man the same mark that she must

of him his next victim if she had not of said so as
she said that he asked her to be examined in the
church she thought she was smart but you will
get left of me the whole thing as far as she is
concerned is very plain but the Belass will do any
thing to connect you brother now that they have
walle such a big to do that I will make any
thing that does not pay out to him thus giving the
murderer time to get away it is indeed full is it not
throu poor Gules I would like to have a hand in
hounclun dor in the could not of dor such a
dreadful dead Have you kept your diary I asked
you bifer Mary Dalton said that she has kept one ever
since you was 14 year old she said would not of been
good if she had of dor so it would of help him you not now
she has every time that she has meet the cor
use of your nice little case that you brother bought
for that purpose you know always I would of you
to keep a journal or diary so do not forget it it will
come usefull some day as they would of now if he
had of help one so take advice my dear Have you rule
you satten dress made yet Did you get your money
yet & how do you get along on what I sent you I am so
glad you are not sure to go throught all of this you could
not help matter & you chald not practis nor do any
thing but sit as I am doing & weale I can not bear
to here the Pino nor do I think it is right to have music
in the house when we are all so sad so my dear
you if you can are better then over there where you
can prepare your self to help us along by any so do
not worrel yourself my Pit we have to live in just
the same it troubles you Brother for fore you get sick
over this I was glad that you were punished me all
say that you will not get left but take care of you helth
you look & you grammer do not use saling nor use
it in your letter as in speaking nor be sure donot
think manna is schooling but you know I said
I arrays was about slange I say have you got your
letter now it caldy for 109 Pernal Ong & if the letters
was over ever so littel we put 109 on for over one Ong
15 & so on is that right Joe has just gone down to
the jail with the bread of can it green pear & Plate
& mint court arice grapes strawberries short case a love of
ray bread some buttk & eggs barrie the milk I man
leaves him a quart of milk every day he looks well
Monday 27 Papa has just come home & say she
is writing to you so he will send his letter in the
Papa has just had a party that son Blanch with
a man on that afternoon near the church he
said that the man was not Theo but was
taller then Thee & that he know Blanch my dear
you know it is not good to count on any thing untill we are
sure so let us live & hope & pray Mrs we has just brought
you ever welcome letter I am so glad that you have decided
to stay there you could do no good here it is more of a comfort to
know that you are doing what I have always want you to
do but on I except all the letters I have sent you since this
trouble has been opened & have sent you five or six on each week
& this will be three from Theo you had better burn all letters
after you read them that is mine I thought I had of you
get the letter that I sent in a paper just before the I had
send it was sent to Mrs Storman do not like the idea of
my bad letter being seen by other then who

the whole thing as far as she is concerned is very plain but the Belass will do any thing to connect you brother now that they have walle such a big to do that I will make any thing that does not pay out to him thus giving the murderer time to get away it is indeed full is it not throu poor Gules I would like to have a hand in hounclun dor in the could not of dor such a dreadful dead Have you kept your diary I asked you bifer Mary Dalton said that she has kept one ever since you was 14 year old she said would not of been good if she had of dor so it would of help him you not now she has every time that she has meet the cor use of your nice little case that you brother bought for that purpose you know always I would of you to keep a journal or diary so do not forget it it will come usefull some day as they would of now if he had of help one so take advice my dear Have you rule you satten dress made yet Did you get your money yet & how do you get along on what I sent you I am so glad you are not sure to go throught all of this you could not help matter & you chald not practis nor do any thing but sit as I am doing & weale I can not bear to here the Pino nor do I think it is right to have music in the house when we are all so sad so my dear you if you can are better then over there where you can prepare your self to help us along by any so do not worrel yourself my Pit we have to live in just the same it troubles you Brother for fore you get sick over this I was glad that you were punished me all say that you will not get left but take care of you helth you look & you grammer do not use saling nor use it in your letter as in speaking nor be sure donot think manna is schooling but you know I said I arrays was about slange I say have you got your letter now it caldy for 109 Pernal Ong & if the letters was over ever so littel we put 109 on for over one Ong 15 & so on is that right Joe has just gone down to the jail with the bread of can it green pear & Plate & mint court arice grapes strawberries short case a love of ray bread some buttk & eggs barrie the milk I man leaves him a quart of milk every day he looks well Monday 27 Papa has just come home & say she is writing to you so he will send his letter in the Papa has just had a party that son Blanch with a man on that afternoon near the church he said that the man was not Theo but was taller then Thee & that he know Blanch my dear you know it is not good to count on any thing untill we are sure so let us live & hope & pray Mrs we has just brought you ever welcome letter I am so glad that you have decided to stay there you could do no good here it is more of a comfort to know that you are doing what I have always want you to do but on I except all the letters I have sent you since this trouble has been opened & have sent you five or six on each week & this will be three from Theo you had better burn all letters after you read them that is mine I thought I had of you get the letter that I sent in a paper just before the I had send it was sent to Mrs Storman do not like the idea of my bad letter being seen by other then who

it will not be necessary to send the letter
only the envelope to let us see how
they are advanced we will try to find
out about them if they had the right
to do such a thing how damn going to run
down to see I shall take your letter to him &
it will cheer him up I have just come from
from I see you will see from the slip that he
had to go to the city hall to day I will tell
you how he fooled the people there was about
hundred around waiting to see him including
the spanners with their cameras all ready to take
his picture well the chief of police came to him & told
him to be ready by half past eight he said you are
not going to take me in that I am as you he said
no I go out first & when I am about a block away
you come & join me so he did & then walked
down block to they took the car road around
Union St & Dupal got off at mid walked to the
City Hall still the crowd waited until near
by then a block but was not they had & when
he came back he was in a Bogey down
mask to her my & along fly up to Broun
ay this writing his feet all feel but my head
is aking so I did not consult the dictionary
My dear darling pet Jack has just been here
with your letter oh how I do love to have them
but am so afraid you are doing to much
work & sitting up to late to write those letters
no I am not going to answer a lot of those
letters of sympathy I answered Mrs Peters
poor soul he'll say rich would send
it but am afraid you know I sent her
a new light colored hat & her mustache
is shaved off & his here cut short so that is
why the people did not know him that
was a nice arling for him after being
shut up for six weeks it will be another
two months before he has another outing
the trial is set for the 23 of July now
dear I heard & never be sure send any
letter with the envelope as Mr Dupae says
it is best to have the letter & envelope if you
found them wrapped when you received them
He is so glad that you are going to stay
there as if it is but you would never get there
again this will come out all right it
must I pray night & day for the right
man to be caught then all will be
happy again I have said a good deal in
this letter I hope you will get it without
it been opened I do not think you are to be
you ever saying my dear for any one not
even for yourself you ought to take a lot of love
when your time will permit you may do it
all the time if you will you are so good not be careful

enclosed & please let me hear all

Dear Darling I nearly kiss you when I stop my
letter upon I start but I want you to send
home the envelope & letter that was cut open
be very careful that you mark just where it
was cut & keep right along in sending
your letters directed I am so sorry that we
were not more careful I said to Papa that
I was afraid that would happen but he
said they dare not do that but they dare do
any thing they want to you have taken
the right care so stand by if George King has
got a punishment to play a pipe organ
Sint Peter & Church over at north beach
& a coral of 25 boys to lead that will be
fine practice for him & until he did not
perform by up for backing up the ink he will
go to work with his wife & Charles that
will give him more time for his music
that punishment is one step he says that
he has had enough of Tarrey's Walf crowd
that gives him a good excuse to shake them
you know they are mad at the Kings for
sticking up for you & as brother you know
my dear that Mrs King has been the
kindest of all to me ever since you left
I told you before that she tried to cheer me
up after you left & now she is so afraid that
I will think that they evidence that George
gave would harm her that she is doing
all she can to cheer both him & me & it
fact all of them have done all they can
King's power then when she goes with me to
see him she has shed many a tear for
me she has given me a very pressing in-
novation to come to spend a couple of weeks
at Fern Lane, New York where they are
going to spend the summer but I thought
her & I did not as I am afraid to go away
from home until after the trial you
have no idea what the House of Lords will
do to obtain evidence for their selves Oh
but it is awful to have anything to do with
them & every one is delight with you & I
& my darling no one is so delighted as your
little Mamma but I know if you only
had the opportunity that you would
be a credit to us all you will never get
left in any thing you will take if
you have your health be very careful of
your health don't work too hard my dear
I will talk more about you very often
in my next letter did you send the letter
as they sent you home yet send all letters of
some envelopes that have been opened Dear
