Dearest Alah. M.D. or M.A.

I didn't get your letter off today  
Ma. thought it not up to write  
so I add a few more lines.

Mrs. Coleman visited me today  
Came at 9:50 AM - 10 minutes before  
visitors usually call. She stayed  
for 3/4 of an hour + we had quite  
a nice time chatting. She will be  
at on the 22<sup>d</sup> of this month (June)

Mrs. Thrasher came in about  
one P.M. or 12:45 and told me  
all about her trip to Loda where  
she spent a week or more past.

No 7's yet - + no visitors  
now till Saturday. Will  
I am not going to run after  
not ask her.

Alice is going up to Pitt.  
for two or 3 weeks + 'speckle' to  
have a good time, but don't  
want to go a bit cause she  
wants to look out for her  
chances with the new mill  
companies coming out here.

Love  
P. P.

I hope she is successful  
In fact I know she will  
be so.

I got some of the most  
beautiful sweet peas  
you ever saw today from  
one of the boys. I send  
you a couple of them  
just to let you see  
them. They are so fragrant.

Nothing new since  
yesterday, save Pauline's mother  
came up to Miss to  
visit her. Love from Kings &  
all others.

Oh! Dad went out with Mr. Sherman  
& saw him. He went in  
and in + the. Mr. S. saw  
him. He said to himself  
"well this must be some  
other servant." & he was the  
most surprised man you  
ever saw. My but didn't  
he land you up to the sky.  
When gracious.

He says you are in the highest  
& most sure Berlin soc.

that you are the handsomest  
smartest most talented girl  
& loveliest sweetest he knows  
so keep up your reputation  
with the rest of the family  
there. Smart & bright are not  
names with which to describe  
our little girl he says.

You bet I know it, they are  
poor words. My but he  
praised you up & said  
you were among the best  
of Berlin people & moved  
in the best society. I am so  
glad too

Will little girl's  
Goodnight. If I write much  
more I'll get it over with  
so An revoir & pleasant  
dreams & good health & happiness  
Loveingly Brother
