Venceremos needs your help! Production and mailing costs for Venceremos are extremely high. Although we have some financing for the production of Venceremos, it is not good enough. We feel the Venceremos is providing necessary information, analysis and reporting of the Chilean situation to its Canadian readers. As a result, we feel that the newsletter must continue. However, that will be possible only with your support.

We strongly urge those of you who are able, to please send a donation to Venceremos.
